WYSIWIG	What You See Is What You Get

1. INTRODUCTION

1.1 Document Scope

This document corresponds to the deliverable D7.1 entitled “Project Website”

1.2 Description

This document describes the implementation of the HELICoiD project public website.

2. WEBSITE DESCRIPTION

2.1 Purpose

The website fulfils two roles:

- a) Communication of the project to specialists and the general public.
- b) Intra-project communication and document sharing.

2.2 Domain Name

The domain name www.helicoid.eu has been registered and linked to the website. This will be maintained for at least two years following completion of the project.

2.3 Visual Design

The HELICoiD website uses an in-house content management system (CMS) which is designed specifically for use with project or conference websites. This allows non-HTML specialists to easily update the website with additional content using a simple WYSIWIG editor.

The website uses a simple, clean and consistent layout, with the HELICoiD logo incorporated into a banner, as shown in Figure 2-1.

Figure 2-1: Screenshot of HELICoiD Website, showing top banner.

2.4 Content

At launch, the website includes the following public content:

- a) **About:** A description of the HELICoID project and its background, accessible to non-specialists.
- b) **Consortium Members:** A page for each project partner describing the institution or company, its role in the project and providing details of the key staff involved.
- c) **News and Events:** This will be used to update readers on important events during the lifetime such as meetings and publications. Initially populated with a description of the project kick-off meeting.
- d) **Press & Media:** Periodic briefings and updates. Initially populated with the project launch press release.

All content is provided in English in order to reach the widest audience.

As the project proceeds, additional sections will be created to present additional content as required. This is made simple by the CMS.

The website also includes, as an integral part of the CMS, a file repository with restricted access. This can be used to share private documents such as minutes of meetings.

3. CONCLUSIONS

An initial version of the project has been launched which provides basic information about HELICoiD. The website will grow in importance as the project develops and additional content is added. Expansion is facilitated by the content management system.

4. CONFIDENTIAL AND PROPRIETARY

The entire content of this document, including, for merely illustrative purposes, texts, images, files, photographs, logos, graphics, trademarks, icons, colour combinations, or any other elements, its structure and design, the selection and form of presentation of the materials included therein, and the software, links and other audio-visual content, in addition to its graphic design and the source code required for its operation, access and use, are protected by intellectual and industrial property rights, held by HELICoiD or third parties, and it may not be understood that any such rights of use of said content are here transferred except as strictly necessary for the correct use of the document.

In particular, the reproduction, transformation, distribution, public communication, publication and in general any other form of use, by any means, of all or part of the contents of this document, and also of its design and the selection and form of presentation of the materials included therein are strictly prohibited. Such use may only be made with the express authorisation of HELICoiD, and always with reference to the ownership of HELICoiD of said intellectual and industrial property rights.

Trademarks, commercial names and distinctive signs are the property of HELICoiD or of third parties, and access to the document in no way grants any rights over said trademarks, commercial names and/or distinctive signs.
