PCP for Healthcare Procurement Welcome to Aachen

UNIKLINIK
RWTHAACHEN

Participation requirements- Consortium

- Minimum two independent legal entities who are public procurers
- Established in two member states or associated countries

PCP-Basics

Markus Belten

PCP – From demand to product

PCP = Pre-commercial Procurement

PPI = Public Procurement of Innovative Solutions

- PCP-Procedures don't take place under the regulations of the Directive 2004/18/EC
- They are excluded under the regulation of Art. 16 lit. f), transferred to German procurement law in § 100 (2) lit. n) GWB

How to design the PCP-Process?

- UKA has gained wide experience in PCP
- Procedure = coordinated approach with the EU
- EU has keen interest in following the basic procurement principles in PCP
- Process was closely reviewed by the EU
- Example procedure is designed in the style of a negotiating process according to procurement regulations

Open Market consultation

Aim

- Contact to stakeholders
- Market research
- Insight in market and state of the art
- Rising awareness

Planned strategy

- Online questionnaire to determinate the demands of the aspired solution
- Regional presentations for interested companies to acquire informations about the planned pcp-procedure and to give an easy opportunity to build tender-consortia

The PCP process

After Open Market consultation:

1. Prior information notice
2. Functional description
3. Open procedure with bidding competition
4. Call for tender
5. Development and evaluation of products during three phases

From PCP to Market

PCP and PPI

... in line with WTO proc. rules, EU Treaty, State aid free

The phases of the PCP-process

- **Phase 0 (pre-pcp-procedure)**
Call for tender to get feasibility-studies
Ends with a selection-process to enter the PCP
- **Phase 1**
Selected tenderer develop a solution design based on their feasibility-study
- **Phase 2**
Three best solution-designs should develop a prototype
- **Phase 3**
Two (at least) best prototypes will carry-on to develop a test system

Core-Facts

- Evolve functional specifications
- Structured evaluation according functional specifications
- Predefined decision matrix throuout all phases
- Monitoring of the decisions
- Internal review and approval of specific selections in e.g. evaluation conferences
 - In case of disagreement consider a ultimate decision body in your consortium structure

AQuAS

- AQuAS -Catalan Agency for Health Information, Assessment and Quality
- Innovation agency for the Catalan Health System
- Experienced in a variety of EU cross border Cooperations
- Innovation management and Innovation Procurement

Consorci Sanitari de Terrassa -CST

- **public health Consortium**
- services in **14 different centres**
- CST has a reference clinical **laboratory**
- clinical **diagnostic imaging** services
- several **medical technologies** applied to surgery and diagnostic areas.

Fraunhofer IPA

- Robotics research institute
- Participation in various EU robotics projects
- Covering all field of application robotics
 - from industry robotics
 - Care assistance
 - Home environment

TOS - RIGA

Hospital of Traumatology and Orthopaedics, Riga

- **220 beds**
- 6204 inpatients, 9079 surgeries, 86517 amb. consultations (2014)
