

Project no. 034567

Grid4All

Specific Targeted Research Project (STREP)

Thematic Priority 2: Information Society Technologies

D6.4 ii- Dissemination events participation description and results

Due date of deliverable: 30/06/2009

Actual submission date: 19/08/2009

Start date of project: 1 June 2006

Duration: 37 months

Organisation name of lead contractor for this deliverable: SICS

Revision 1

Project co-funded by the European Commission within the Sixth Framework Programme (2002-2006)		
Dissemination Level		
PU	Public	
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	✓

1. Dissemination event at SICS Open House Day 3

Grid4All list of participants

Role	Participant N°	Participant name	Participant short name	Country
CO	1	France Telecom	FT	FR
CR	2	Institut National de Recherche en Informatique en Automatique	INRIA	FR
CR	3	The Royal Institute of technology	KTH	SWE
CR	4	Swedish Institute of Computer Science	SICS	SWE
CR	5	Institute of Communication and Computer Systems	ICCS	GR
CR	6	University of Piraeus Research Center	UPRC	GR
CR	7	Universitat Politècnica de Catalunya	UPC	ES
CR	8	ANTARES Produccion & Distribution S.L.	ANTARES	ES

1. Dissemination event at SICS Open House Day

SICS Open House Day is an annual event organized and held by SICS. It is meant to demonstrate SICS research activities and achievements to the industry and academia. It also allows SICS to receive feedback and learn about requirements and new developments in the industry. On average, several hundred participants took part in the event.

The Niche stand attracted around 10-15 persons from the industry and academia that were given a short presentation, a GMovie demo, and on several occasions were also involved in a more in-depth discussion of the Niche rationale, capabilities and its implementation using a structured overlay network.

More information on the event and the programme for the day can be found at <http://www.sics.se/openhouse2009> (below is the first page of the site).

Välkommen på SICS Open House 24 april, 2009!

Tid: Fredag den 24 april kl 08.30-16.00
Adress: Electrum, Isafjordsgatan 22, Kista
Kostnadsfritt, men [anmäl dig här!](#)

SICS Open House är ett årligen återkommande evenemang då vi visar upp vad vi gör på SICS, vilka forskningsresultat som vi åstadkommit på senare tid och mer allmänt ger en glimt av vad som är på gång på IT-området.

I år har vi en mycket intressant huvudtalare: Koen Bertels, som leder det välkända Computer Engineering Laboratory på Delft University of Technology. Sedan kommer vi att visa resultat och pågående forskning från SICS i en stor utställning med demonstrationer parallellt med korta föredrag hela dagen. Det kommer att finnas massor att se och upptäcka och forskarna finns tillgängliga hela dagen för att berätta om sina visioner och resultat. Lunchsmörgås serveras och på eftermiddagen samlas vi för ett glatt minglande i baren.

Program SICS Open House, 2009

[Detaljerat program med beskrivning av samtliga föredrag och demonstrationer kan laddas ner här.](#)

Level of confidentiality and dissemination

By default, each document created within Grid4All is © Grid4All Consortium Members and should be considered confidential. Corresponding legal mentions are included in the document templates and should not be removed, unless a more restricted copyright applies (e.g. at subproject level, organisation level etc.).

In the Grid4All Description of Work (DoW), and in the future yearly updates of the 18-months implementation plan, all deliverables listed in section 7.7 have a specific dissemination level. This dissemination level shall be mentioned in the document (a specific section for this is included in the template, both on the cover page and in the footer of each page).

The dissemination level can be defined for each document using one of the following codes:

PU = Public

PP = Restricted to other programme participants (including the EC services);

RE = Restricted to a group specified by the Consortium (including the EC services);

CO = Confidential, only for members of the Consortium (including the EC services).

INT = Internal, only for members of the Consortium (excluding the EC services).

This level typically applies to internal working documents, meeting minutes etc., and cannot be used for contractual project deliverables.

It is possible to create later a public version of (part of) a restricted document, under the condition that the owners of the restricted document agree collectively in writing to release this public version. In this case, a new document code should be given so as to distinguish between the different versions.
