

WP1 **Administrative Coordination**

3 Technologies & Strategies <i>· Assessment, combination and integration of technologies for emission reductions</i>	 <p>WP2 After Treatment & Thermal Energy <i>· Exhaust gas cleaning · Exhaust gas energy recovery · Thermal energy at port</i></p>	 <p>WP3 Propulsion & Maneuvering <i>· Hydrodynamic technologies</i></p>	 <p>WP4 Power Generation & Propulsion <i>· Ship performance modelling · Alternative propulsion · Auxiliary drives</i></p>

3 Scenarios <i>· Scenarios for emission reductions</i>	 <p>WP5 At Sea <i>· Emission Reduction Model</i></p>	 <p>WP6 Port Approach & Maneuvering <i>· Emission Reduction Model</i></p>	 <p>WP7 At Port <i>· Aiming at Zero Emissions</i></p>

WP8 **Implementation Strategy & Economical Aspects**

WP9 **Dissemination**

TEFLES is funded by the European Union within FP7-THEME 7-Transport (including aeronautics) Grant Agreement Number: 266126
