

IROHLA Project end report annex

Scientific publications and planned publications per theme

Publications in scientific journals are important products of the IROHLA project. However, many of the research results have been produced towards the end of the project. Due to long procedures before publications are accepted, it may take one year or more after the completion of the project, before all publications planned and listed below are published indeed.

Development of a comprehensive model on health literacy in an ageing population

- Geboers, B., de Winter, A.F., Luten, K.A., Jansen, C.J.M., Reijneveld, S.A. (2014). The association of health literacy with physical activity and nutritional behavior in older adults, and its social cognitive mediators. *Journal of Health Communication*, 19:sup2, 61-76.
- Geboers, B., Brainard, J.S., Loke, Y.K., Jansen, C.J.M., Salter, C., Reijneveld, S.A., de Winter, A.F. (2015). The association of health literacy with adherence in older adults, and its role in interventions: A systematic meta-review. *BMC Public Health*, 15:903.
- Rohde T, Kolpatzik K, Winter de AF (2015) Förderung der Gesundheitskompetenz älterer Menschen Ansatzpunkte auf Basis des EU-Projektes IROHLA Bundesgesundheitsbl 2015 · 58:958–965
- Geboers, B., de Winter, A.F., Spoorenberg, S.L.W., Wynia, K., Reijneveld, S.A. The association between health literacy and self-management abilities for well-being in adults aged 75 and older, and its modifiers. (Submitted)
- de Winter, A.F., Koot, J.A.R., Vervoort, J.P.M., Geboers, B., Koops van 't Jagt, R., Reijneveld, S.A. The development of a health literacy intervention model with a list of modifiable determinants: a review of the literature and a Delphi study. Work in progress
- de Winter, A.F., Landsman, J., Jansen, C.J.M., Koot, J.A.R., Reijneveld, S.A. Development and evaluation of a taxonomy of health literacy interventions. Work in progress

Pilots and validation, guidelines health literacy and ageing

- Koops van 't Jagt, R, Hoeks J, Jansen CJM, de Winter AF, Reijneveld SA (2015) Comprehensibility of Health Related Documents for Older Adults with Different Levels of Health Literacy: A Systematic Review. *Journal of Health Communication* Published online: 23 Nov 2015
- Paech, J., & Lippke, S. (2015). Health literacy as a key to healthy ageing in Europe. *European Health Psychologist*, 17(2), 67-71

-
- Brainard J, Loke Y, Salter C, Koós T, Csizmadia P, Makai A, Gács B and Szepes M. Healthy Ageing in Europe: Prioritizing Interventions to Improve Health Literacy. (under review) RESN-D-15-00015
 - Brainard J, Howard-Wilsher S, Salter C and Loke YK Methodological Review: Quality of Randomized Controlled Trials in Health Literacy (under review) BHSR-D-15-00485
 - Geboers, B., Reijneveld, S.A., Jansen, C.J.M., de Winter, A.F. The roles of loneliness and social participation in the association between health literacy and health behavior in older adults: A LifeLines study. Work in progress.
