The Energy Research Institute (TERI) is a not-for-profit research organisation established in 1974 with a mission of dealing with serious environmental and developmental problems that mankind would face in the years ahead like the gradual depletion of non-renewable resources and the existing methods of livelihood adopted by people that are polluting. Over the years TERI has created an environment that is enabling, dynamic and inspiring for the development of solutions to global problems in the fields of energy, environment and current patterns of development, which are largely unsustainable.

University of Agricultural Sciences, Dharwad (UASD) came into existence in October 1986 with a mandate of teaching, research and extension in the field of agriculture and allied subjects. UAS Dharwad is one of the leading universities at all India level with its jurisdiction spanning four agro climatic zones ranging from northern dry zone to Coastal zone. UAS Dharwad was associated with McGill University, CIDA funded project on Food Processing during 2002-2009 and presently has IDRC funded project on Food Security along with MSSRF and McGill University as partners.

Ugar Sugar (UGSG)

Jagadish H Kulkarni

(08339) 272230
jagadish.kulkarni@ugarsugar.com

The Ugar Sugar Works Ltd is the flagship organization of the Shirgaokar Group of Companies. The company has been involved in the manufacture of white crystal sugar for over 65 years. Currently, at Ugar and Jewargi plants, a total of 15,000 tcd of sugarcane is being crushed daily. After the expansion plans are realized, the Ugar Sugar Works will have a total crushing capacity of 17,000 tcd in the season 2011-12. The Ugar Sugar Works Limited has been successfully operating its 44 MW Bagasse based Cogeneration Power Plant- one of the largest power plant of its type in the country for several years.

Ajay Jindal
Chief Manager–Water Technologies

ajay_jindal@intenc.com

Ion Exchange

Ajay Popoat
CEO

ajay.popat@ionexchange.co.in

Ion Exchange India Limited pioneered water treatment in India and is today the country's premier company in water and environment management, with a strong international presence. Formed in 1964, as a subsidiary of the Permutit Company of UK, Ion Exchange became a wholly Indian company in 1985 when Permutit divested their holding. The company currently employs 1,000 people - multi-disciplinary teams of highly experienced professional managers, technologists and scientists, supported by a widespread infrastructure in India and abroad.
